\_\_\_\_\_ I understand and acknowledge that I should avoid Henna if I have G6PD deficiency, been advised to avoid Fava beans, Quinine, are extremely anemic, have serious citrus allergies or essential oil allergies.

\_\_\_\_\_ I realize that my Henna Brow procedure is temporary and may stain my skin and will start to fade as soon as 24 hours after procedure is complete.

\_\_\_\_\_ Client can request that Anne Bonny's staff performs a patch test to ascertain potential allergic reaction to the henna products. Pigments being used have a low probability of allergic reaction but cannot absolutely rule out the possibility of allergic reaction. The efficacy of a patch test has been discussed with the client. By initialing here \_\_\_\_\_ the client **DOES** request a

patch test. Client holds Anne Bonny's harmless and absolves Anne Bonny's from all liability resulting from allergic reactions to henna products.
